Story of Soulify

Most of us over the years have learnt to ignore, mute and be indifferent to our soulful expressions either due to our fearful conditioning of surviving in what we have believed to be a competitive world. This is and will always be the cause of man's sorrow and darkness. It is our innate need to guide ourselves from darkness to light.

The journey from darkness to light, from the finite to the infinite begins only when we look 'In' - to the soul, to the Creator of infinite possibilities. Through our creative processes of writing, art, storytelling, theatre and animation, we facilitate our participants to discover their soul and their soulful expression which has always been the guiding beacon of their lives. We facilitate them to experience their life's story as the Creator and not the Victim by seeing and embracing their self in completeness – together with their strengths and limitations, and seeing their challenges as opportunities to evolve and grow.

The tagline 'Discover The Infinite' aptly describes the efforts of this novel venture. Change is an eternal romance between the creator (energy) and the creation (matter). We prefer to call it transformation. Through our workshops, our participants connect with the creator hidden within themselves and develop the power to transform their creations, starting with the self," says Siddharth.

Our aim is to encourage individuals to imagine, innovate and create and not become mere robots efficient at carrying out instructions. The focus is on the idea, the thought and the story waiting to be shared. Language, grammar, spelling, drawing techniques are secondary. Soulify's effort is to help people break their internal barriers and express their minds. In the words of Manjul Bharadwaj, noted theatre personality, creator of 'Theatre of Relevance (TOR)' and mentor, "Soulify - Discover The Infinite - is a wonderful initiative which makes the world better and humane by facilitating the artistic persona of individuals and groups through innovative and creative interventions!"

Siddharth and Smriti conceived and founded Soulify in December 2017, an effort to encourage individuals to empower themselves by identifying and connecting with the creator within. In a short span, they have reached out to children from various socio-economic backgrounds, homeschoolers and unschoolers, village children, orphans, teachers, parents of specially abled children, jail inmates and participants with diverse backgrounds wanting to explore and share their creativity. Their initiatives under the Soulify umbrella — Story Bus, Creators Envisioning Forum, I - Literature, Theatre of Relevance based self-awareness sessions, Nature & Awareness sessions and Storytellers Learning Centre have been designed to bring to life stories hidden in the minds of people.

Story of The Founders - Facilitators

Smriti Raj

Smriti is a passionate, evolutionary, ardent Theatre of Relevance Practitioner and Initiator, currently writing, conceptualising, initiating theatre based modules at individual, institutional, Indian and international level while addressing the need to be humane and connect with life. She has been thriving as a TOR initiator since for the past 12 years with the intent to consistently initiate 'Process' oriented workshops where the participants act as a resource. With the heart, determination, and vision of an explorer, Smriti successfully initiated, organized and executed a 3-day theatre festival in New Delhi to celebrate the completion of 25 years of Theatre of Relevance. Understanding the process of creative envisioning, and encouraging the artists, youth, and children to empower themselves by nurturing from their own potential, surrounding, and family, Smriti has been evolving and learning through every initiative. From animation to performing in a play called Laadli (Population First campaign against sex-selective abortion) at NCPA, Smriti quotes this passion to spread awareness through artistic expression has and will always be her elixir.

Siddharth Maskeri

Siddharth Maskeri is a visionary, storyteller and mentor who is driven to spread happiness and togetherness through his thought-provoking, evolutionary, unifying and humanifying stories. Siddharth Maskeri made his debut to Indian Cinema with his story - Masti Express. After a decade of experience in the field of animation, in 2012, he was sponsored by the French Embassy to visit the acclaimed animation festival Annecy to share his stories with the international market. Enko The Eskimo – a kids' animated series co-produced with Emmy Nominated Writer Mike Blum has been under development with a leading broadcaster in the USA. The versatile creator and storyteller is also co-producing an animated series along with Toonz Media Group. He has directed interactive experiences for India's first interactive museum. He has designed characters for Get My Goat - a Dreamworks YouTube animated series. He has been a show creator for some of the leading animation companies in India. His most recent association as a Creative Director has been with the eminent producer of Indian cinema – Mr Bobby Bedi. Siddharth's journey as a storyteller and experience creator in museums has provided a new dimension to his thought process and body of work. His love for sharing the art of storytelling through animation has provided a healthy ground for students across several animation schools across India.

Stories of Change

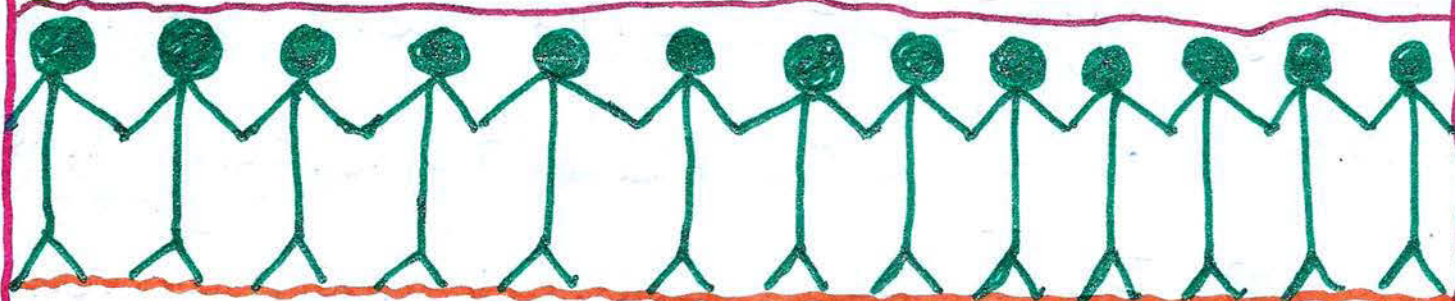

Led by Our Dreams, Overcoming Our Limitations.

Our process began by understanding - Who Am I, What Are Our Dreams and What We Want Our World to Know Us For.

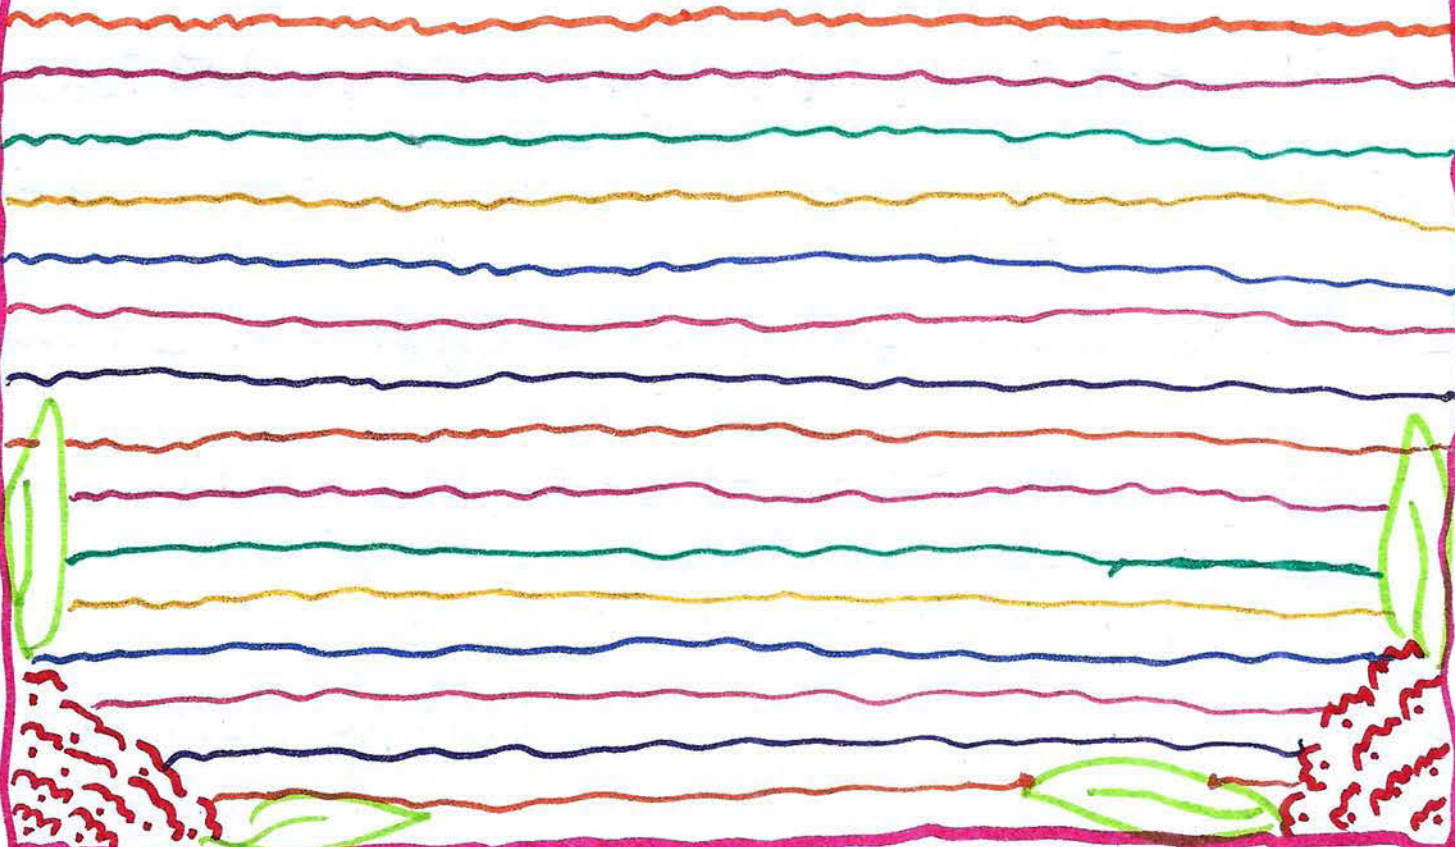

The participants identified their strengths that will empower them to face the challenges to achieve and sustain their dream.

Later, they identified their limitations and thanked their limitations for gifting us with tough situations to overcome and evolve.

Read and enjoy our participants' stories of courage to overcome their limitation.

UNEXPECTED INCIDENT

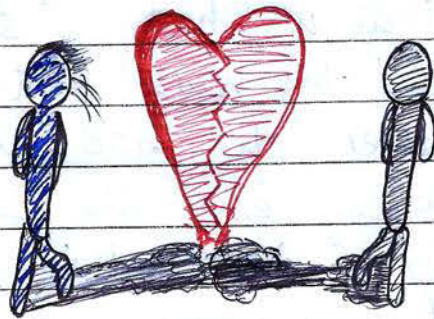

It happened after the morning assembly. When I was about to leave for class, ~~my~~ I heard a voice from behind calling my name. "Sangye" some called out and I saw my classmate. She asked me to lend my school diary cause she was sweating and having a hard time. So I gave my school diary for her. After that we had our self a workshop at hall. The first two hours went happily and I asked her whether she had my school diary. She was about to say when the Baya and Didi called at all of us for a new activity. After the break Didi called out my name and told that I was about to sing a song for my classmates. Everyone gave a big handclap for me as I don't know that I have done my best. Few minutes passed, I asked the girl again whether wait, this is the incident where its got worst. It happened like this, I asked her where is my school diary. She was like asking her friend. Suddenly, her friend got up and told me with anger that she would give me at break. So I was little bit anger. Now it was last period, ~~so~~ again I asked her she told that she doesn't have ~~anything~~ the diary,

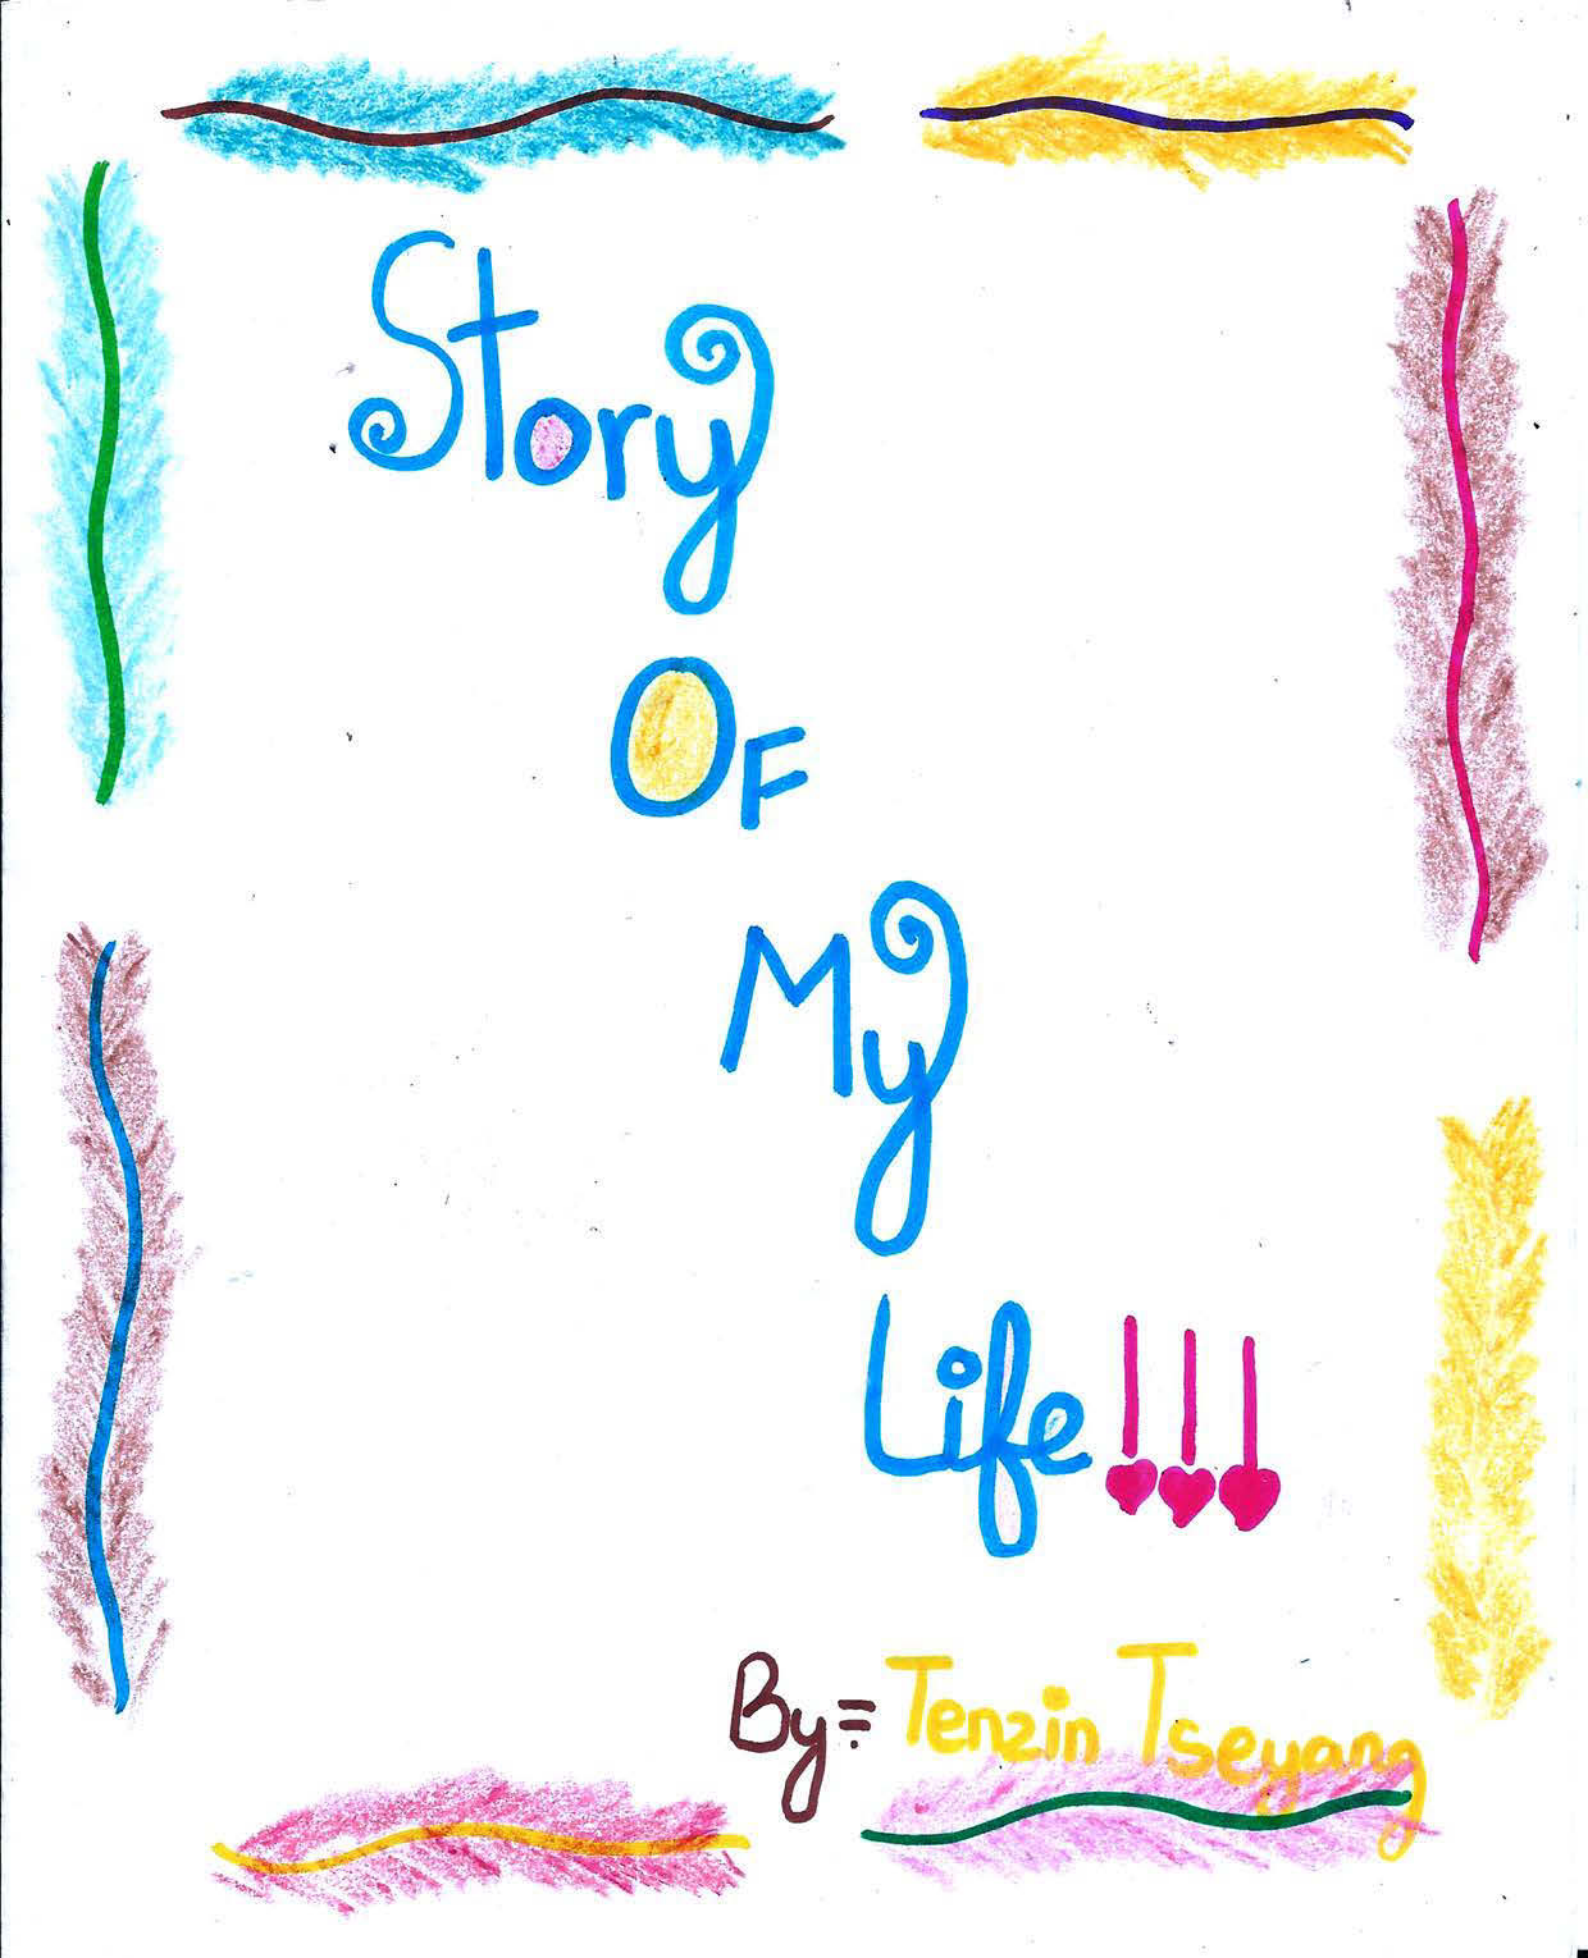

she told me that, it been gone from her hand. I got really angry and promise that I will not talk with her ever again.

"A promises a promise.

FREEDOM

From

my

HOSTEL LIFE

Once I was in my school named Nirman Vidya Peeth. It was a school whose owner was from Manipur. It was a school like a prison. I did not like it. I wanted to run away. The food was also not tasty. They did not let us play, eat eatables and play toys. I never got happiness there. I wanted to leave the school. But I also had to think about my mother. I am the only son for her and she is only my mother who had looked after me. So I did not tell her my sadness. But slowly she came to know about my sadness as she is my mother.

So she changed my school. And the school name was Mon Heritage School. I changed my life there. I became school captain there I became matured. I knew what I am interested in we get to play there eat eatables etc. I got freedom from my sadness to happiness there. After that I changed my life forever and became matured.

Thank You.

Stories of Change

Into The Depth of Darkness

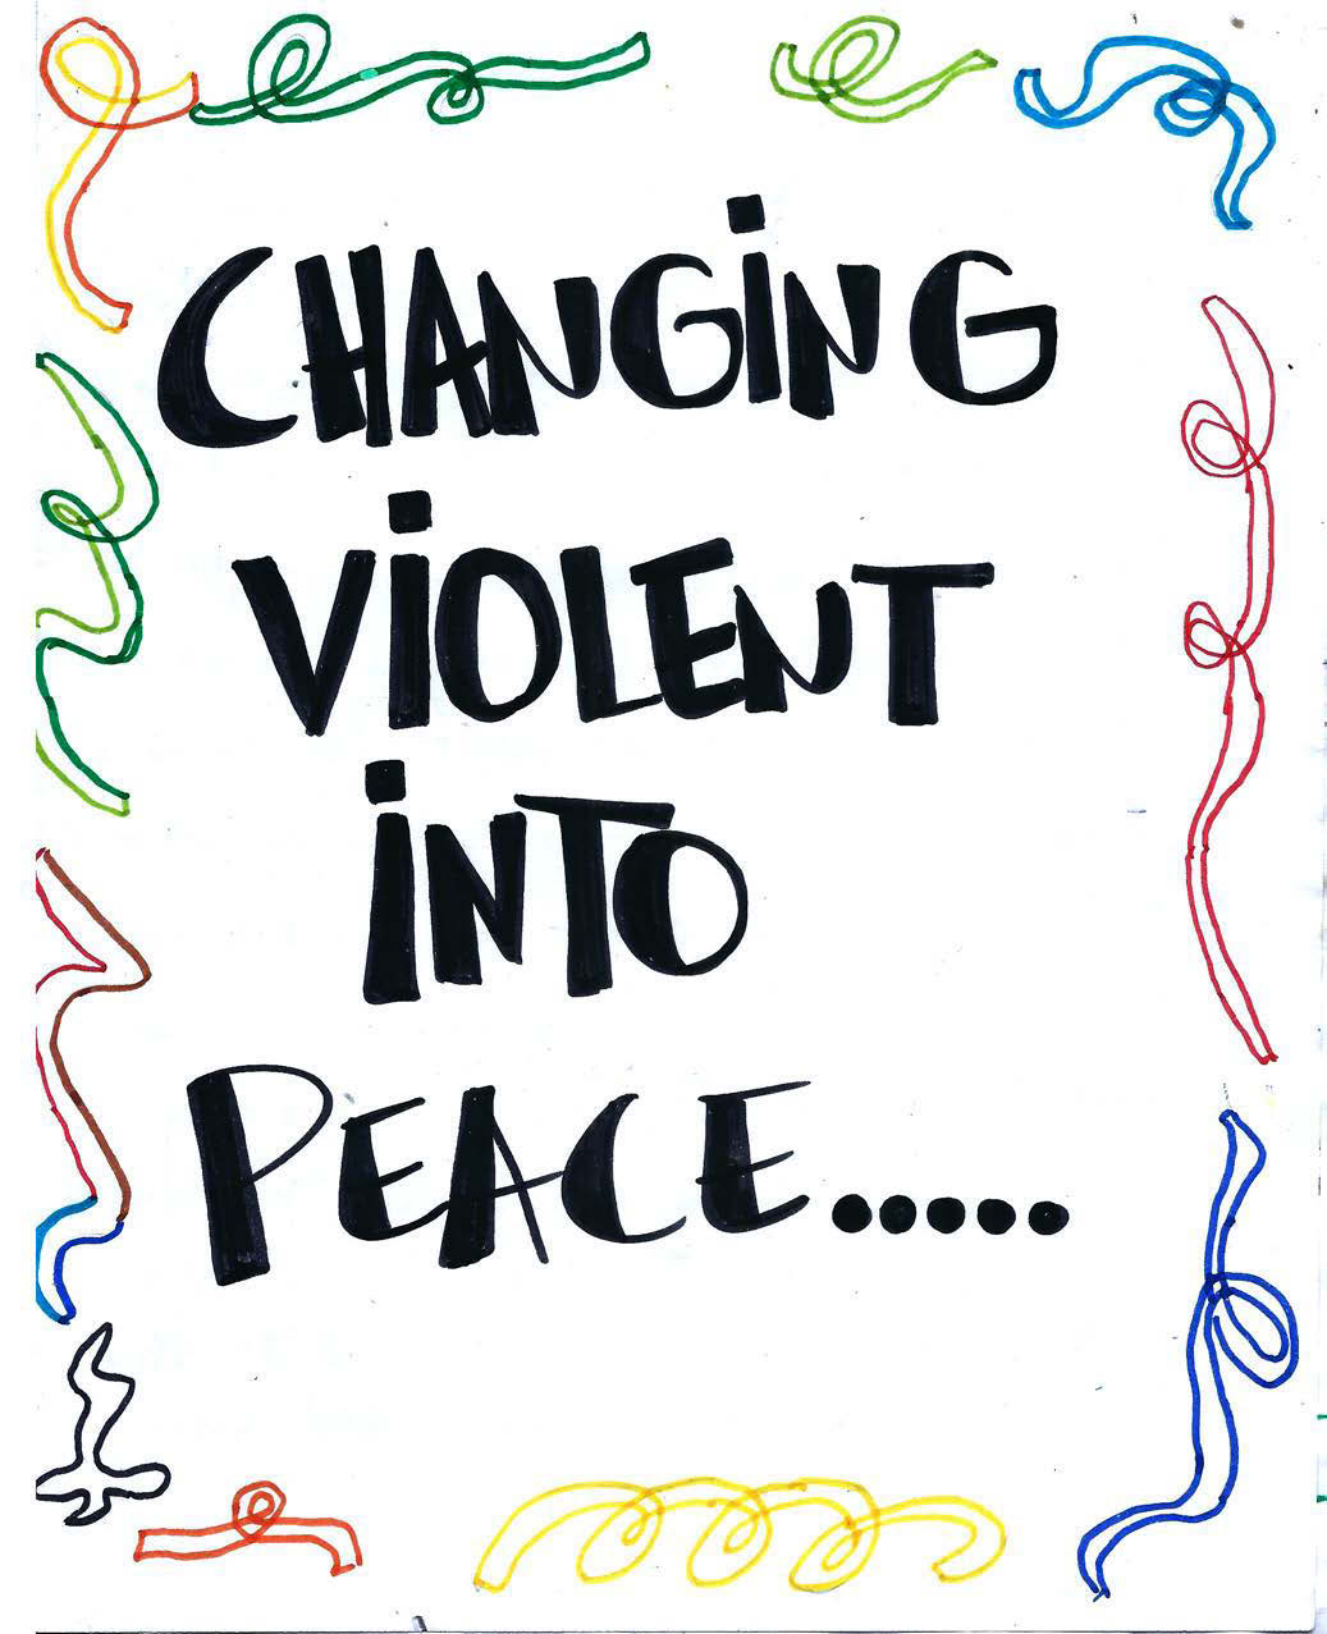

It is essential for us to dive into the depth of darkness to see understand the value of light.

We created 6 groups separating best friends, providing the participants an opportunity to connect with others in the class.

Each group picked up a paper chit with a word hidden in it – a word of darkness – Domination, Separation, Hatred, Discrimination, Imprisonment, Chaos,

They reflected upon when and where they have experienced this darkness in their lives, homes, society and how they discovered the light – Equality, Togetherness, Compassion, Freedom, Harmony

Go ahead, Dive into the Darkness and Enjoy their adventures.

A hand-drawn decorative border surrounds the text. It features colorful swirls in green, blue, red, yellow, and orange. A white dove is drawn in the bottom left corner, and a yellow wavy line is at the bottom center.

Nice
friend

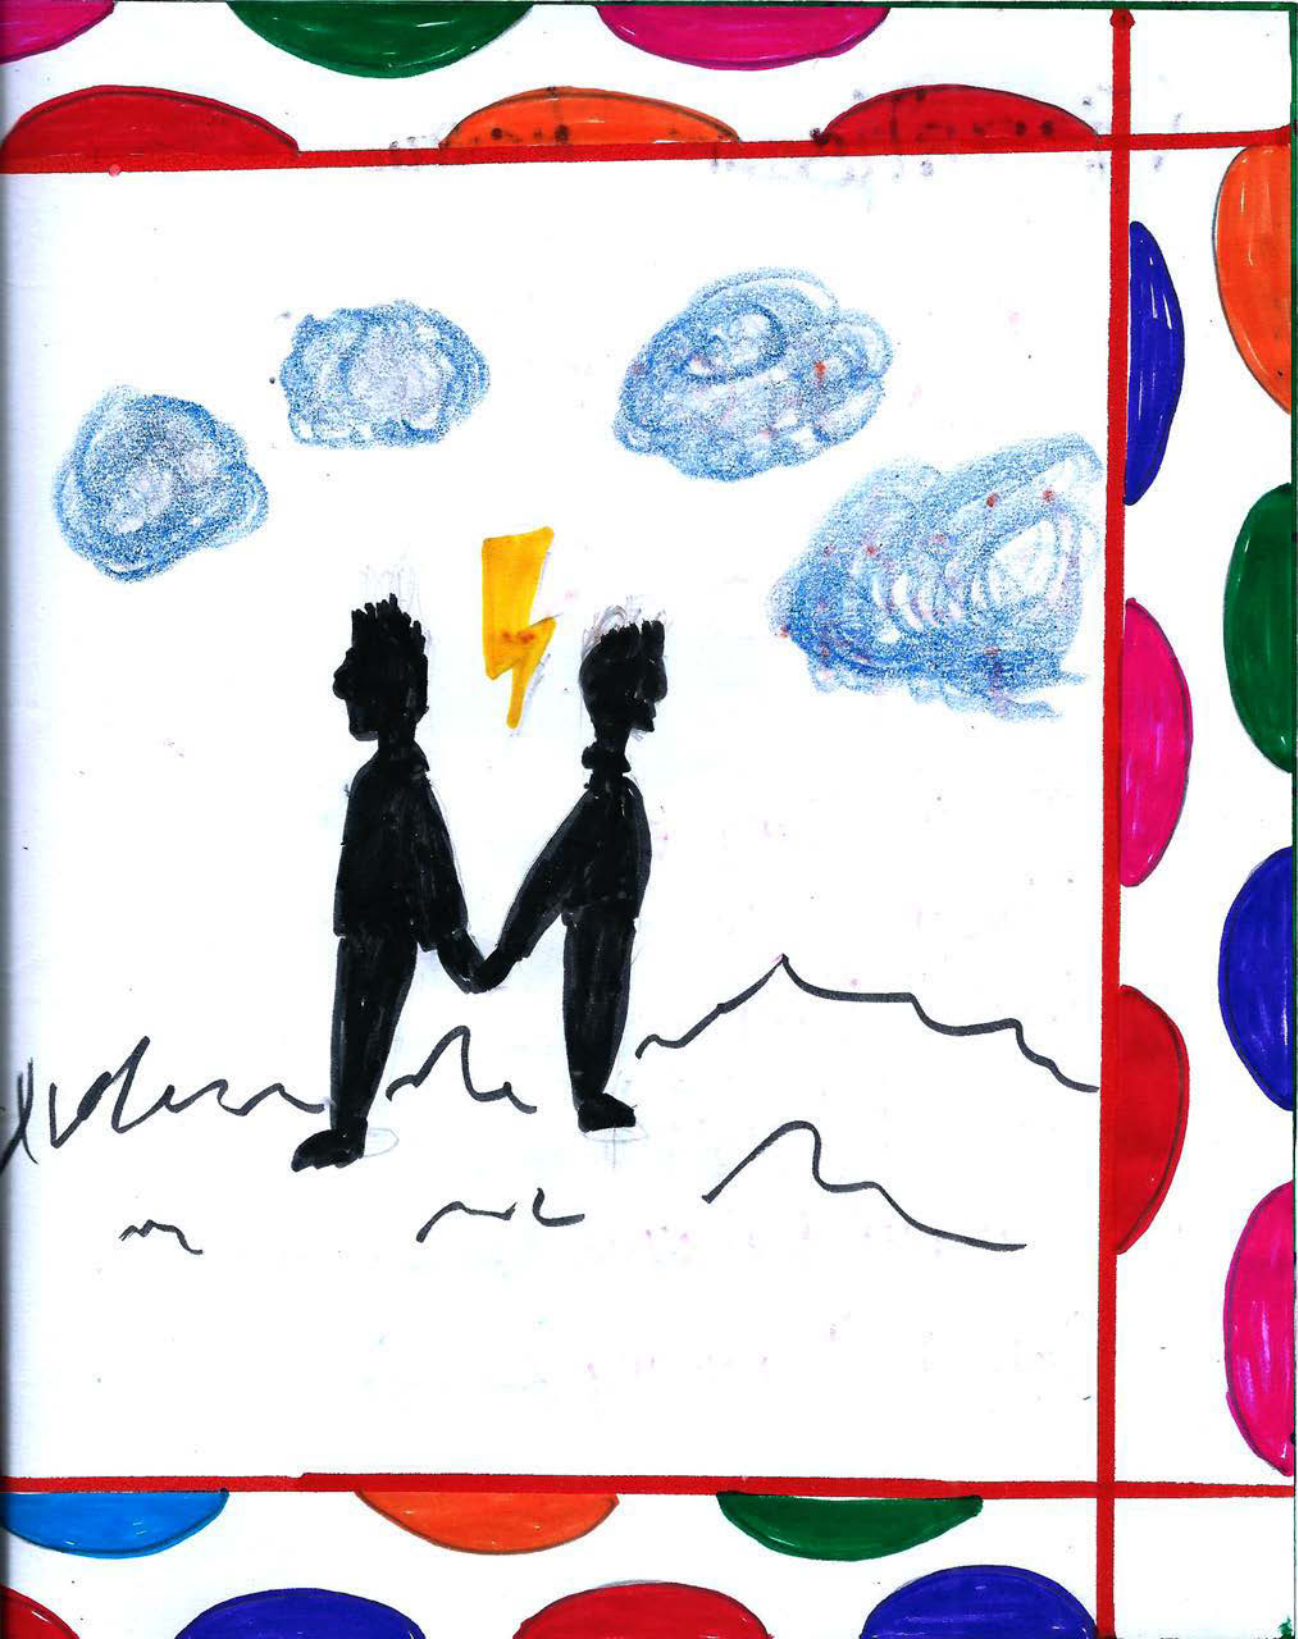

Year ago, two friends are very friendly friends. Even when they have a small thing they share it together. They always go together to school. During holiday they go outside and go out for swimming most of the time. When they were small they always do their best in the class. Some of the holiday, they go to each other's home.

One day while Sanqye and Gendun were in school. The teacher scolded Gendun and send him out because he had not finished the homework and suddenly he ran, the teacher followed. When Sanqya saw the teacher and children surrounding the gate. The Gendun had climbed the gate and ran away. The next day he was suspended forever from school. Sanqye was sad and depressed from then.

Year passed he still didn't saw
his friend. At 2017 at the Buddha's
temple, he was so astonished
and was very happy to see him
there at temple. The next day
they went out again for summing.
Both were happy from then on.

I am I where ~~are~~ you from?

I am from a Arunachal Pradesh from a district
Tawang. It is a hilly region. The 'momos' dumplings
~~are~~ is the food mainly special there. The fruit that we
get there are orange, apple and kiwi. There are many
crops like red rice, spinach and corn. The transportation
is good there, the roads are good plain and ~~the~~ there
is no language just a dialect. It is a clean place.
The second largest monastery in Asia is located
there. "Golden Namgyel, Latse Monastery" in
short "Tawang Monastery". There are many dances
and songs. The traditional dress is red in colour
for girls is called "Shinka" and the boys dress is
called "Khongju" and the name of the place is given
Tawang because the "The Assistant of Dalai Lama who is
Merak lama whose horse was lost when his holiness told
him to build a monastery. He came searching for his
horse then in ~~our~~ he found the horse in our land.
Then he planned to build the monastery there".
So Tawang means "blessing of horse". The king of
Tawang was "Gyalpo Kalawang po" once. The people
there are very kind and the weather there is sometimes
Pleasant, foggy, rainy and snowy. There are many flowers
there and it is the cleanest districts in whole
Arunachal Pradesh. Once the Chinese attacked there, But they
could not take it. There are many lakes and holy places
there to visit. ~~Thank You~~ There is problem to get job
and other than less every thing is fine. Thank You.

There are not much challenges. But ~~some~~ once the people there were protesting for to stop making dams and three people were dead and many big case happend.

Once upon a time there was boy called Lobsang and he is lived in Ladhak. He is live in home which is made of glass and brick in his home there was five member in his family. The traditional food his country is Bumpa and traditional dance is Ladhak dance. In there lots of tree and flowers. The transportation were very good but when the winter came then the all road were block by the snow then the transportation of road have problem. The landscape where Lobsang lives is on the mountain. The season and the weather were good to us. The fruits and vegetables were so fresh and there are lots of people who depend on the Agriculture. But in his country there are little discrimination between us. There are little problem in transportation or communication. There have little problem on religion between Buddhism and muslim because there more Buddhism and little mount of muslim. In his country there lots of animals like fox, wolf, Bears and etc. In night many of people didn't go outside because there are many animals which eat us. Many of parents were protect very well for there children or child.

* Where are you from?

Ans: I am from Spiti kaza and our language is Tibetan or Bodhi. And our common food is sampa, curd, yellow rice and Tibetan tea and etc. Also our cloth is chopa and ~~Red~~ normal cloth. Our village roads are very dangerous and not well or plain. Also the weather is bad and falls ~~so~~ many snow in winter. Our village people come ~~very good~~ ~~the~~ shall but people with big heart is in our village. The fruit and vegetables which we grow is khambu, apple, pomegranate, bananas and some other fruit. The vegetables which we grow is also, carrot, cauliflower and other. In our village there is tree but there is more field than the tree. The animal which sound in our village is snow leopard, fox, horse, fish, dog, cat and Yak. The birds which sound is crow, bee and hummingbird. The traditional which do in our village is His Holiness birthday, ~~on~~ 26 January and I didn't know many about traditional which does in our village because I study here and most of traditional do in summer. - Do not fear / Be full of courage.
- Participate had to do with mind as well
as psychical.
- We all are rich one way or another
and

We are young

- Be happy.

Dear Didi and Bro...

I hope that you are enjoying your time with us. I am enjoying it very much and I am happy that I am not moaning at my class but enjoying with you.

So today I went to the theatre group as I am not good at drawing and I am good drama.

So today I had known

→ What is elements of drama

like expression, motion, emotion, loudness and etc

→ Theme of drama

So the dramas theme could be chosen differently and we had known to choose the theme which could touch the feeling of actors.

→ What an actor requires

There was no born actor but we ~~has~~ will become one if we practise harder.

The actor should be the person which stage needed.

→ How to feel like actor
People have ~~6~~ six senses as well as actor
so actor should feel those senses and
act.

→ When place and things change
acting and actor had to
change too.

So thank you and oh! Acting the drama
was very good experience.

Thank you!
